eComStation 3.0

The unparalleled success continues

Financial results for eComStation

- 2009 was best year ever for eComStation
- 2010 turnover of eComStation 3 x 2009
- Trend in 2011 continues, sales to companies primarily in the US.
- New customers (companies) needing to replace Warp 3/4!
- Virtualization not an option in many cases!

eCS sold on new equipment!

- Sales to USPSS customers continue (fastforward)

- UIC: "Debbora Ahlgren, Universal Vice President of Marketing. "With the Generation 88 release, we incorporated improved usability features such as the eComStation Operating System offering a simplified user interface and improved networking and file transfer."

- Large customer with climate control equipment (not updates, new licenses!).

Done since Warpstock 2010

- eComStation 2.0 English released

- eCS 2.0 not released in German etc.:

  - Bootmanager problem with Windows Vista/7

  - Disc checker problems
